EWB Night

January Session

The global Engineers Without Borders changemakers campaign

We're planning a "Changemaker" campaign on social media to celebrate World Engineering Day and highlight the role of engineers from across the global EWB community who are driving positive change in the world today so that all people and the planet can thrive.

We're inviting all national Engineers Without Borders organisations to take part and amplify our collective impact.

Kicking off on Monday 27 February, we will be highlighting one changemaker per day in the run up to World Engineering Day on Saturday 4 March and showcasing the work of the global EWB movement on the day itself with a video embedded into the 24hr live stream event run by the World Engineering Day team.

With pro bono support from tech marketing agency Publitek, we have created social media assets highlighting the changemakers and inviting followers to tag/shout out their own changemakers from their communities and networks. We will be releasing these from the EWB International social media accounts for you to share / repost and/or you can also download our social media kit to make your own posts directly from your accounts.

Assets are generated with flexibility/options. You can plan to just share the assets on World Engineering Day, or utilise the kit for activity all week long like we are. You can also customise the assets e.g. to change the language for your audience.

WORLD ENGINEERING DAY

MARCH 4, 2023

EWB CHANGEMAKERS

#WorldEngineeringDay

Firstly...

A big thank you and HUGE congratulations to all seven candidates who stepped up to create such a high calibre pool from around the world: Håkan Kårdén of Sweden, Jonas Bergmann-Paulsen of Norway, Kapil Dev Regmi of Nepal, Muaamar Mahyoub of Yemen, Nick Estrada of Guatemala, Pedro Alves Filho of Brazil and Raymond Lopinski of Hong Kong. We're grateful that all candidates have expressed their willingness to continue engaging at the international level as we continue to shape and grow the collaborative capacity of the global EWB network.

We also wish to extend huge thanks to everyone who took part and voted. Your voices matter and we had phenomenal worldwide engagement during this election. We believe this highlights the passion for continuing to shape the global space together and we're excited to be facilitating the journey with you.

Announcing the new elected directors of EWB International

The results

Of the seven candidates presented for election, the three receiving the highest number of votes, and now elected to the board of EWB International are (presented alphabetically by name):

- Muaamar Mahyoub from EWB Yemen
- Nick Estrada from EWB Guatemala
- Raymond Lopinski from EWB Hong Kong

As elected directors they now have the privilege and responsibility of serving on behalf of all national Engineers Without Borders organisations on the board of EWB International.

Congratulations to Muaamar, Nick and Raymond! We're excited to welcome you to the board and look forward to working with you.

**We will be opening more opportunities to engage in shaping and creating global collaboration soon.
Watch this space!**

The new elected directors

Muaamar Mahyoub, Humanitarian Operations Director, EWB Yemen

I will work to provide excellent support to the EWB through the stewardship of all resources, growth & elevated influence over strategy, funding, policy, profile, & partnership, by contributing talent, knowledge, & expertise towards the organization's overall excellence. My objectives to add value to EWB by

1. Bringing EWBI to become a global 'go to' organization, shaping the agenda on responding to conflict, fragility, & complex crises, expanding EWB new partnerships, capacity, reputation for innovation
2. Providing a supportive environment where team members exchange experience & knowledge to be able to do the best work of their lives.
3. Increasing EWBI's revenue, representing a growth through a diverse portfolio of funding streams.
4. EWBI's globally integrated & fit-for-purpose systems, policies & processes will result in more streamlined, efficient & timely support to country entities, team members & donors.

Nick Estrada, Country Director, EWB Guatemala

I have worked for more than 20 years in rural areas, where I am originally from. I would like to contribute as a member of EWB International to achieve the objectives that have been proposed but above all contributing with my knowledge in working with the most unprotected communities in the American continent.

I am a PhD in geographic sciences, specializing in natural hazards, with a master's degree in project formulation and evaluation, and an agronomist. My academic development and my work experience have allowed me to establish alliances with different organizations committed to the development of communities.

Seeing my people working every day to obtain daily food has motivated me to continue working for the most vulnerable families.

Raymond Lopinski, Board Director, EWB Hong Kong

EWB-I is empowered by the strength of its chapters and needs to facilitate info/program sharing and connectivity to other NGO's/funding.

Together we can enhance our impact by:

- Strengthening our ability to provide utilities to underserved communities.
- Be an advocate/influencer in developed countries (major contributors to climate change, sustainability, inequality).
- Impact future generations by expanding the innovative chapter run education initiatives.

I have worked for global corps (various industries) travelling to over 60 countries and responsible for operational services in developing and developed countries. This diversity of experience has taught me to develop strategic visions and deliver operationally in a local context. It is important that together, our programs be driven by a human centric focus and by strong dynamic teams helping each other across numerous cultures, countries and regions.

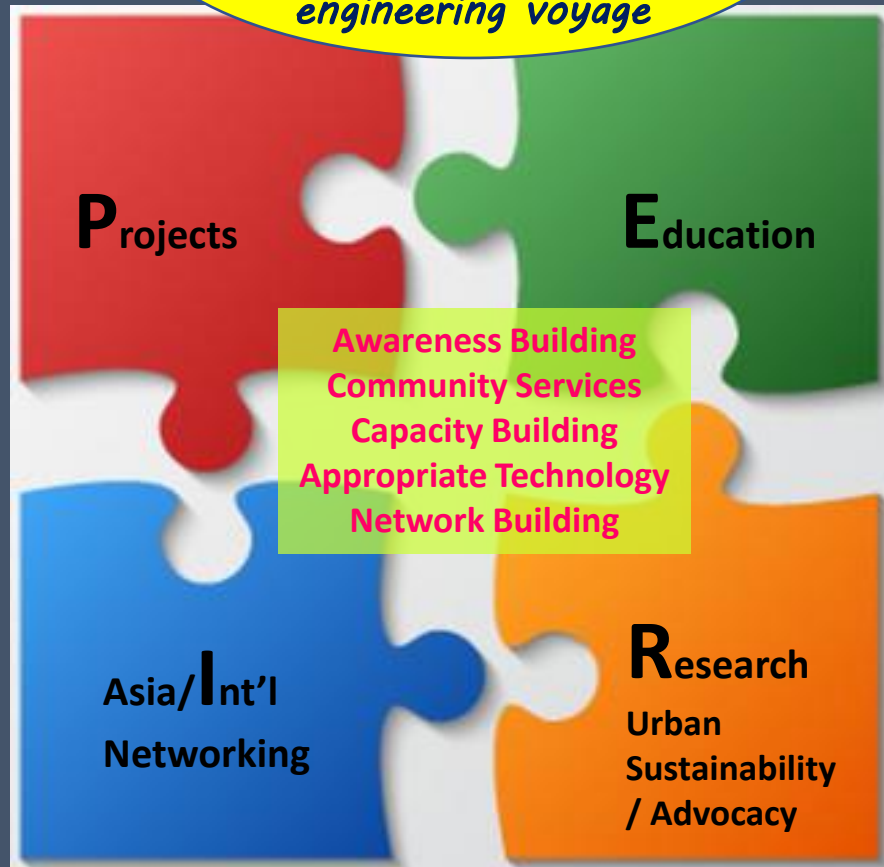

Transformation of EWB Hong Kong

PIER

*for the humanitarian
/ people-centric
engineering voyage*

1. Social and Community Service (HK, mainland, overseas)
2. Supporting other NGO's
3. Partnerships for the GOOD

1. Sharing ideas and expertise / knowledge transfer
2. Finding value in solving global problems at a local level

1. A Learning Organization
2. Capacity Building for Students
3. Capacity Building for Community
4. Volunteer development and training
5. GCP

1. Research (project / product) – SDG, Urban Sustainability, Climate, ...
2. Conference / Events / publications
3. Awareness Building
4. Advocacy

Technical Visit to AsiaWorld-Expo

Organized by
Building Services Operation and Maintenance Executives Society (BSOMES)

Date, Time & Venue

Date : 17 Mar 2023 (Friday)
Time : 2:00 pm to 5:30 pm
Assembly Time and pick up point : 2:00 pm at Kowloon Tong MTR station, Exit D

Speaker:

Representatives from the organizations

Summary

AsiaWorld-Expo (AWE) is a member company of HKIA SHL, subsidiary of the Airport Authority Hong Kong. AWE is one of the world's premier exhibitions and entertainment venues. A magnet for the world's leading brands and corporations to showcase their offerings to the world, AWE offers flexible integrated exposition space, with outstanding support facilities and world-class catering options. AWE offers huge, column-free, integrated ground-access spaces with high ceilings, flexible configurations and ancillary services that can accommodate everything from rock concerts to global conventions and exhibitions to product launches.

AWE had upgraded hardware including Hong Kong's largest indoor seated stadium- new retractable seat riser system, wifi-6 and mobile studio, hybrid meeting facility, smart solutions for sanitation and Ice Thermal Storage Installation, etc. It is worthy for BSOMES members to these opportunities to more understanding the operation and maintenance of mechanical ventilation of aforesaid system in AWE

Fee

Join the pro bono teams:

- Project team leaders / core members (various supports)
- Volunteer engagement / cohesion / fun activities
- Proposal and fund seeking
- Branding, publicity and communication
- Administrative support

Donation for Organization Development and Project Administration

Support Us

EWB-HK aims at bridging pro bono engineers with beneficiaries on both organizational and individual bases. We value the professional uniqueness of our missions in Hong Kong as well as the collective and expanding intentions of our volunteers.

Apart from engineers, we also need volunteers from various professions or with diversified experiences to support the operation of and to develop EWB-HK. To be more specific, we need volunteers to take up project leader and coordinator roles as well as to provide technical backup, administrative support and relevant training to our volunteers. So if you are interested in joining us, please do so now.

Although EWB-HK is managed and operated by volunteers, funding is still one of the challenges we are facing. The income from membership fees is meant to pay off administrative costs only, which include employees, insurances, utilities, office and venue rentals, website construction and maintenance, etc.

The level of Membership fees collected fell far short of expenses even when we have no dedicated office and only one part-time employee. Since the current mode of operation burdens a few of the key roles in the organization, we need to break the bottlenecks by employing some staff members. In addition, to look for a set of premises to serve as an office and a place for volunteers to gather is also on the agenda. All these need money. Meanwhile, our projects in Hong Kong and overseas are currently operated on self-financed basis. However, we also welcome projects in some scale that will substantially improve the living of our target beneficiaries. Such projects, when they come by, may need capital costs.

How to support us?

Donate to us : for details, please check out the part on Donation.

Join us : as a Volunteer, and then a Member, and take up roles mentioned above.

Donation for Organization Development and Project Administration

How to Donate?

<https://www.ewb.hk/donation-en>

Training and Meeting:

Venue rental:

HK\$100,000/year (approx. budget)

For GCP workshops, EWB activities and training, Volunteer gathering, meetings

If we can receive 35 donations per month, at HK\$250/m

1. will be sufficient for our training, meeting and gathering venue
2. able to support the **growth of EWB Hong Kong**

Staffing:

A P.T. Admin Staff:	Approx. budget HK\$120,000/year
A P.T. Project Coordinator:	HK\$180,000/year
A F.T. Project Coordinator:	HK\$350,000/year
